

Consumables and supplies that keep your shrink wrap and banknote banding equipment running — available alongside our machine sales, installation, and maintenance services.

Shrink Wrap Films

Packaging shrink films provide a tight, secure seal that helps prevent tampering or damage during transportation. Supplied in a range of thicknesses and sizes to match your product requirements.

Material options:

- PVC film
- Polyolefin film
- Polyethylene film

Compatible with the full Ladypack range, Smipack SL/S series machines, and comparable shrink-tunnel equipment.

Banding Bands & Tape

Pre-printed and blank paper bands, and film tape, for banknote banding machines — sized to match your bank's branding and denomination requirements.

Options:

- Pre-printed paper bands (bank name, branch, denomination as required)
- Blank paper bands
- Film tape — compatible with paper or film-tape banding machines with no parts change

Compatible with the Akebono OB series, Mabas SBM-90, and the DFM5540/FM5540 alternative line.

To order consumables, confirm your machine model and required sizes/thicknesses with our team — contact details are on every page of this sheet.
